

Product	HTSUS No.	Duty rate (percent)
Copier Toner Cartridges	9009.90.7090	(1)
Printer Toner Cartridges	8473.30.9000	(1)

¹ Free.

Zone procedures would exempt Xerox from Customs duty payments on foreign components used in export production (some 5–25% of production). On its domestic sales, Xerox would be able to choose the lower duty rate (duty free or 6.5%) that applies to the finished products for the foreign components noted above (duty free-10.1%, with a weighted average duty rate of 7.8%). FTZ procedures will also help Xerox implement a more cost-effective system for handling Customs requirements (including weekly entry filings, reduced brokerage fees and Customs merchandise processing fees). The application indicates that the savings from zone procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ Staff has been designated examiner to investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and three copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 12, 1999. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period to October 27, 1999.

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:

Antidumping Investigation on Live Cattle from Canada: Notice of Extension of Deadline for Submission of Briefs and Hearing

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Extension of deadline for submission of briefs and of hearing date.

EFFECTIVE DATE: August 13, 1999.

FOR FURTHER INFORMATION CONTACT: Gabriel Adler or Kris Campbell, AD/CVD Enforcement, Group II, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, D.C. 20230; telephone (202) 482-1442 or (202) 482-3813, respectively.

Extension of Time

On July 19, 1999, the Department postponed, until October 4, 1999, the deadline for the final determination in the antidumping investigation of live cattle from Canada. See Notice of Postponement of *Final Antidumping Determination: Live Cattle from Canada*, 64 FR 40351 (July 26, 1999). As a result of this postponement, the Department is extending the deadline for the submission of briefs. Case briefs are now due by August 13, 1999, and rebuttal briefs are due by August 20, 1999. In addition, the hearing date is anticipated to change. For more information regarding the hearing date, contact the parties stated above.

Dated: August 4, 1999.

Bernard Carreau,

Deputy Assistant Secretary, AD/CVD Enforcement Group II.

DEPARTMENT OF DEFENSE

Corps of Engineers; Department of the Army

Intent To Prepare an Environmental Impact Statement (EIS) on Interim Operations of the Central and Southern Florida (C&SF) Project To Project the Cape Sable Seaside Sparrow (Sparrow) Until the Modified Water Deliveries to Everglades National Park (Mod Waters) Project Is Fully Constructed

AGENCY: U.S. Army Corps of Engineers, DoD.

ACTION: Notice of intent.

SUMMARY: The congressionally authorized Mod Waters project consists of structural modifications and additions to the existing C&SF Project required to improve water deliveries for ecosystem restoration of Everglades National Park (ENP) without adverse impacts on adjacent private property. The current water management operational plan Test 7 of the Experimental Water Deliveries Program for the C&SF Project was developed in 1995 to allow experimentation and improvement of water delivery during the long construction phase of the Mod Waters Project. In February 1999, the U.S. Fish and Wildlife Service (FWS) issued a Biological Opinion under provisions of the Endangered Species Act that concluded that the Test 7 jeopardized the continued existence of the sparrow. They further concluded that ultimate protection for the species would be achieved by completing construction of the Mod Waters Project as quickly as possible. In the interim, they recommend that certain hydrologic conditions be maintained in the sparrow's breeding habitat to avoid jeopardizing the species. In response, the corps will develop an Interim Operational Plan (IOP) for the C&SF Project to meet the FWS's guidelines.

FOR FURTHER INFORMATION CONTACT: U.S. Army Corps of Engineers, P.O. Box 4970, Jacksonville, Florida 32232; Attn: Mr. Elmar Kurzbach, 904/232-2325.

SUPPLEMENTARY INFORMATION:

1. The proposed action will consist of water management operations of existing structural components of the C&SF Project to avoid flooding the sparrow
